THE BLUE RIBBON LIST

APR 30 1947
U.S. Department of Agriculture

OF THE

WORLDS FINEST DAFFODILS

Listed herein are the finest Daffodils obtainable, note the many awards which are designated by an * following the names. They have been assembled from England, Ireland, Australia and Holland and include some very fine American introductions.

All these varieties are grown at our nurseries in Gloucester and York Counties, Virginia, and are guaranteed true to name. These stocks are carefully inspected, once during the growing season in the spring and again in the fall (just before shipping season) by State Inspectors. The grower of these fine varieties has had many years experience with Daffodils, which includes 20 years as farm manager for one of the largest raisers of Daffodils in this country.

Virginia grown Daffodils bloom two or three weeks earlier than those raised in the cooler Northern climate. Flowering this much earlier they have a chance to develop fully while the weather is still cool. This is especially important with the highly colored reds, oranges and the many delicate shadings that are seldom seen, especially if they open during bright warm spring weather.

As a number of varieties on this list will not be dug unless ordered, it is **IMPORTANT** that orders be sent in before June 30, (digging must be completed in July). If desired, full descriptions will be furnished on any variety ordered.

The DAFFODIL Mart
